

Notice of Public Information Meeting:

The Department of Transportation (Department) will conduct a Public Information Meeting concerning the proposed rehabilitation of Bridge No. 02265, on Tuesday, August 30, 2016, at 7:00 p.m., in the Monroe Town Hall, 7 Fan Hill Road, Monroe, Connecticut.

The project is identified as State Project No. 84-110.

Bridge No. 02265, built in 1915 and reconstructed in 1930, is a single span bridge which carries Route 34 over Boys Halfway Brook in the town of Monroe. The structure is situated approximately 0.3 miles west of the Oxford town line. The existing structure consists of a reinforced concrete slab superstructure supported by masonry and reinforced concrete abutments.

The proposed project consists of replacing the existing concrete slab with a new reinforced concrete slab. This rehabilitation is necessary to address the deteriorated condition of the existing concrete slab. The roadway width will be increased to 34 ft., which will accommodate a 12-ft. travel lane and a 5-ft. shoulder in each direction. The stone masonry and concrete abutments will be repaired as necessary. The existing channel shall remain undisturbed during construction.

The replacement of the existing concrete slab will be performed utilizing signal controlled alternating one-way traffic operations over six weeks. Additional construction activities will be performed utilizing off peak lane closures before and after this six-week period.

Right-of-way impacts associated with the proposed project are not anticipated.

Construction is anticipated to begin in spring 2018 based on the availability of funding. The estimated construction cost for this project is approximately \$700,000. This project is anticipated to be undertaken with 80 percent Federal Funds and 20 percent State funds.

The Public Information Meeting is being held to afford a full opportunity for public participation and to allow open discussion of any views and comments the community may have concerning this proposed project.

The meeting facility is ADA accessible. Language assistance may be requested by contacting the Department's Office of Communications (voice only) at (860) 594-3062 at least five working days prior to the meeting. Language assistance is provided at no cost to the public, and efforts will be made to respond to requests for assistance.

Plans of the proposed project will be on display for public review. Department personnel will be available during the meeting to discuss this project. More detailed information is available at the Department's Office of Engineering, 2800 Berlin Turnpike, Newington, Connecticut, Monday through Friday between the hours of 8:30 a.m. and 4:00 p.m., excluding holidays. Anyone wishing to discuss the project may contact Louis D. Bacho at (860) 594-3212 or by e-mail at Louis.bacho@ct.gov. Plans are also available for review at the Monroe Town Hall.

Everyone Is Invited To A
