

TOWN OF MONROE

OFFICE OF THE FIRST SELECTMAN

COVID-19 Pandemic Update

April 5, 2020

There are currently a total of 10 laboratory-confirmed cases of COVID-19 in Monroe. We continue to post updated counts daily on our website, along with information for individuals, families, and our local businesses. Some updates to note:

- I have suspended the biennial filing requirement for any person already receiving tax relief under Town's Elderly or Disabled Tax Relief Programs.
- In response to outpouring of requests of those wishing to help, we have established a page on the Town website for those wishing to make a financial donation towards the Town's response and relief efforts. Visit www.MonroeCT.org/donate to contribute towards Social Services programs such as the Food Pantry, other Town volunteer programs, or to make a general donation towards COVID-19 efforts.

As you have probably heard, public health experts from the State of Connecticut currently predict that the total number of cases in Fairfield County will continue to rise, and will peak in 2-3 weeks. What's important to remember is that we can still make a difference in the outcome. As we all prepare for yet another week of social distancing, I want to emphasize just how important this is for all of us. The actions we take now, as individuals, impact our entire community. Thank you for doing your part.
