

# TOWN OF MONROE

## OFFICE OF THE FIRST SELECTMAN

### COVID-19 Pandemic Update

#### December 28, 2021

#### **RAPID SELF-TEST KIT DISTRIBUTION**

- The Town of Monroe will be distributing free COVID-19 rapid self-test kits to Monroe residents on Thursday, December 30, 2021. The primary objective is to provide testing for those residents who are unable to find an alternative testing location AND have a known exposure or who are symptomatic.
- The state is allocating test kits based upon population and Monroe is receiving approximately 2,400 kits. Since supplies are so limited, we are currently able to provide only ONE kit per vehicle, on a first come, first served basis. Each kit contains 2 tests.
- Monroe residents can pick up a test kit on Thursday, December 30, 2021 from 2:00 PM to 6:00 PM (or while supplies last) at Jockey Hollow Middle School, 365 Fan Hill Road. This will be a drive-through pickup and identification showing Monroe residency is required. Please do not arrive early, as vehicles will not be allowed to line up in advance.
- Furthermore, the state is currently planning for a separate test kit distribution in January for students in grades K-12. Further details are expected next week and will be communicated as soon as available to the Monroe school community.

As transmission has continued to increase throughout the state, we encourage those not fully vaccinated and boosted to visit the COVID-19 page on our website, [www.MonroeCT.org/COVID-19](http://www.MonroeCT.org/COVID-19), for links to find vaccination and boosters in our area.
